TELEFONE TESTE DE LINHA

Ref: 01201ST220

Senter ST220 Telephone Line Tester

Overview

ST220 Telephone Line Tester is a new kind of line fault tester with safety & multi-functions capabilities. Besides the functions as a common Telephone Line Tester, it also has the functions of high voltage protection and dangerous voltage warning, etc.

Main Functions and Key Features

- Dialing, talk, hook
- Checking wire pairs
- Test insulation or break faults of the line
- Pulse/Tone switch
- DTMF applying to GB/T15279-94
- High voltage alarm
- Low voltage warning
- Last number redial
- Special durable test clamp
- Automatic power off and energy-save design
- Pocket size, simple operation

Technical Specifications

Insulation impedance test

Range (MΩ)	0~10
------------	------

General specifications

Ring distance (Km)	≤1
Line break resolution (Km)	≤3
Weight (kg)	≤0.22
Dimension (mm)	146×54×37
Battery (V)	9
